

We are currently looking to fill the following position in Friedrichshafen:

Senior Full Stack Software Engineer (m/f/d)

Responsibilities:

- Work as a member with significant influence in one of our agile Scrum teams to develop, enhance and maintain Indra Avitech product solutions for the aviation industry
- Participate in the full development life cycle from inception through testing, implementation and support while using the Scaled Agile Framework (SAFe) methodology
- Create API interfaces and business services for Aeronautical Application parts
- Provide guidance to Junior Developers, e.g. preparing development tasks/tickets, conducting code reviews and do pair programming
- Develop enterprise-quality, horizontally scalable code using best practices, quickly and according to specifications

Requirements:

- Minimum 5 years experience as a self-motivated engineer
- Very good analytical skills
- Produce code that reads like poetry and takes full ownership of your work: builds, ships and maintains your codebase to the highest standards as we scale
- Subject matter expertise in infrastructure / hardware / software / database / middleware stack
- Contribute to solutions design, create, update, improve product architecture and optimize product performance
- Relevant knowledge of best practices related to security, performance and disaster recovery
- Strong problem solving and analytical skills

We offer:

- Flexitime without core working time
- 30 days holiday
- Good work-life balance due to mobile working
- Individual support with regular further training programmes
- Working in international teams
- Possibility to use Jobrad, Wellpass, corporate benefits
- Workplace in the four-country region on Lake Constance with attractive leisure opportunities

Indra Avitech GmbH is a leading, internationally active developer of IT systems for the aviation industry. Our extensive know-how ranges from individual components to complete solutions and our products are used by civil and military air navigation service providers, government agencies, civil aviation authorities and airlines in more than 55 countries worldwide.
